

ACSF SMS Tool

The **ACSF SMS Tool** is a simple, yet highly customizable Safety Management System (SMS), complete with online software and an Assistant Director of Safety service.

An SMS is fundamental to aviation safety.

It's a formal, top-down, business-like approach to managing safety risk. It includes a systemic approach to managing safety, and offers the necessary organizational structures, accountabilities, policies and procedures.

The ACSF SMS Tool is free for ACSF members

enrolled in our Aviation Safety Action Program (ASAP).

It's a great alternative to paid SMS programs, especially for smaller operators in Part 23, 91, 125, 133, 135, 137, 141 and 145 programs.

**If you transport passengers,
your operation can benefit
from an SMS program, period."**

Honorable Jennifer Homendy
Chair, National Transportation Safety Board

FEATURES

- Document aviation safety events
- Create Emergency Response Plan (ERP) checklists
- Conduct risk assessments
- Perform flight risk assessments
- Assign corrective actions
- Monitor fatigue
- Develop safety checklists
- Aggregate data
- Export ASAP reports
- Conduct surveys

SMS TOOLS

- **SMS Tool** – The central hub for all SMS functionality and updates from all Tools.
- **Flight Risk Assessment Tool** – Build custom FRATS as needed. (Includes analytics, plus 38 questions from the FAA.)
- **Compliance Monitoring Tool** – Build compliance checklists and track results.
- **Emergency Response Plan Tool** – Build custom ERP checklists and track drills/events. (Comes with 300+ checklist items to modify as needed.)
- **Facilities Maintenance Tool** – Enables employees to report facility issues.
- **Industry Audit Standard Tool** – Record compliance with the ACSF IAS, get auditor feedback and track changes.
- **Internal Evaluation Program Tool** – Build your own audit and track results. (Comes with 500+ questions to modify as needed.)
- **Member Assistance Program Tool** – Use a project management solution to manage your SMS rollout.
- **Part 5 Certification Tool** – Prepare a Letter of Compliance and Schedule of Events for FAA submission, helping you track changes throughout the process.
- **Read & Initial Tool** – Send specific team members a notice or bulletin and have them acknowledge they've received and read it.
- **SMS Evaluation Tool** – Evaluate how your SMS stacks up to the international standard and track your progress.
- **Culture Evaluation Tool** – Compare your SMS Culture against the international standard and monitor results over time.
- **Survey Tool** – Create and send employee surveys to monitor the health of your safety culture.
- **Training Tool** – Access training videos or slide presentations and build your own tests.

BENEFITS

- **Saves time, money and headcount resources**
- **Prepares Part 135 operators for new FAA regulation**
- **Mentors staff in all safety-related matters**
- **Fosters a strong, positive, proactive safety culture**
- **Prepares you for SMS meetings**
- **Adapts to your operation (you don't adapt to the Tools)**

DON'T DELAY!

Quickly start improving your safety culture.
